Around Hübschental

Nice little Tour with highs and depths at the edge of Gütenbach

Get to know the three little Valleys of Gütenbach, the Kohltal, the Grundtal and the Hübschental. Your hiking tour begins with the crossing of a creek in direction Kohltal, from here on you walk on the crosscut Schwarzwald until you cross the "Westweg", which you follow to the left. At this crossing a bench invites to rest a little while you can take a look over the Grundtal to Gütenbach and the Feldberg. Walk until you reach the restaurant Raben and keep to the left along the yellow signs crossing the Alteck. During the following descent you get rewarded with multiple gorgeous outlooks until you reach the starting point after passing the Kirnerhäusle. You walked now around the Hübschental.
